\$200

Vibby Fall

\$170

NOVO

With the progressive evolution of communication technologies, it is more and more complex for service providers to find the best possible solution to support their customers. In this context, NEAT has taken a decisive step towards the future with the all new digital telecare system: NOVO.

LIFELINE 4G ALARM

The Lifeline 4G Alarm is 24/7 monitored personal medical alarm. With many improved functions.

Tunstall B.E Pendant

The Tunstall B.E Pendant and Amie Watch are designed to operate on the 4G network and GPS. Designed to work out doors with Fall Detection. 24 / 7 Call Centre located in Brisbane. Communicate via the pendant.

\$320

SmartLink Guardian 4G

The modern slim line design allows it to be installed unobtrusively anywhere.

\$320

Amie Watch

The Tunstall B.E Pendant and Amie Watch are designed to operate on the 4G network and GPS. Designed to work out doors with Fall Detection. 24 / 7 Call Centre located in Brisbane. Communicate via the pendant. Will operate in Australia and New Zealand

Key Safes

A code of your choice is programmed into each.

One type can be attached to a Security door or Grill. The other type can be secured to a wall. You will need to have a key to be placed inside. This code is given to emergency services when required.

\$60

Fall detectors can be programmed to all medical alarms listed in the product range.

Our Emergency Alarms provide you and your loved one's peace of mind and security. They can be used to call Ambulance, Police, or Fire Brigade. These machines are totally independent of telephones lanelines and the NBN. They operate over the 4G Mobile network.

The machine is activated by pressing the button on the pendant on a neck cord or wrist band. A Fall Detector can be programmed into the emergency medical alarm. The pendants and fall detectors are water proof and we recommend they be worn in the shower.

The call center is located at Eagle Farm in Brisbane and duplicated in Auckland, New Zealand and you receive the same prompt efficient service from either center. The call center operates 24/7 every day of the year and the operators are all qualified Aid Responders.

The Emergency Medical Alarm staff at Kedron-Wavell Sub Branch RSL Inc. are volunteers and can help you with all of your enquiries and arrange a suitable time for our qualified installers to provide your new alarm. Installation is within a few days.

Group demonstrations can be arranged for group organisations.

We work with many age care providers so you may be able to have our charges paid for through your home support scheme
